UNFICYP CHAPEL COMPLETE

The bell of the UNFICYP Chapel at Austrian Field Hospital was rung for the first time on Christmas Eve welcoming the congregation to midnight mass.

The construction of the chapel began in June 1969 and was consecrated on 13th September. On this occasion senior members of HQ UNFICYP and a representative body of all contingents were in attendance for the service.

Soon afterwards the preparations were made for the second stage of the three-phase project. After a large donation from the Canadians all contingents supplemented the church-building fund for the materials required.

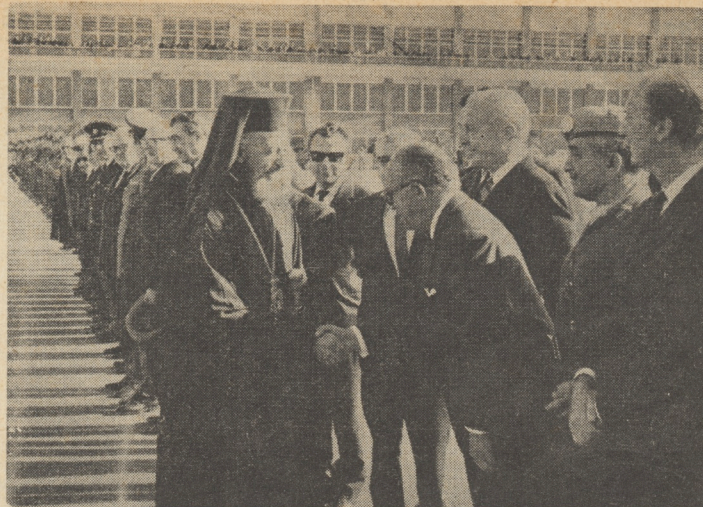

The members of the Austrian contingent then set about the hard work of laying the foundations for the tower. Under the supervision of WO II Kranzl (Austrian Contingent), Cpl

John Nixon (Cancon), and Pte Markku Nissinen (Fincon) the bell-tower steadily grew; they formed an excellent team which goes to prove that in spite of a language barrier the best can always be achieved if there is a will to do so.

The bell and a coloured-glass window were donated by Austrian Army physicians in the Federal Province of the Tyrol.

To celebrate the completion of the tower the Austrian Army Chaplain/paid a visit to Cyprus and led the service on Christmas Eve Lt Col A. Jordan.

Plans are already under way to start the third phase of the project in March.

ARCHBISHOP MAKARIOS ON TOUR OF AFRICA

Mr B. F. Osorio-Tafall, Special Representative to the Secretary-General and Major General D. Prem Chand, the UN-

FICYP Commander were at Nicosia Airport on the morning of Friday, 2nd January, to bid bon voyage to his Beatitude, Archbishop Makarios.

The President was departing for a fifteen day tour of Tanzania, Zambia and Kenya. On his return journey he plans to stop in Rome to meet exiled King Constantine. The Archbishop expects to be back in Cyprus on January 18th.

UNCIVPOL PAINTING DISPLAY

Recently a display of paintings took place in the Acropole Hotel, the HQ of the Austrian Civilian Police. The paintings were created by members of the Civilian Police and demonstrated the close link between UNCIVPOL and the country of this beautiful Island. The exhibition was promoted by the Commanding Officer of the Austrian Civ Pol Major W. Beier. Austrian General Konsul Dr Marangos from Nicosia held the opening ceremony. Many officials honoured the ceremony with their presence.

Our picture above shows members of the Austrian Civ Pol who participated in the

exhibition. Left to right, Rev Insp A. Wagner Rttm E. Baeumel, Rev Insp H. Scholz, Ptl A. Jazek.

GENERAL PREM CHAND PÅ BESØG I DANCON

Den nye Force Commander, Maj. Gen. D. Prem Chand, har haft nogle travle dage før og efter jul, idet generalen hurtigst muligt ønskede at besøge samtlige contingenter.

Lørdag den 27. december gjaldt besøget Dancon. Generalen inspicerede de enkelte kompagnier, og aflagde bl. a. besøg i motorværkstedet, hvorfra dette billede er hentet.

Fra venstre ses major E. H. Houkjær, oberstløjtnant C. H. Christensen, general D. Prem Chand, major G. K. Kristensen, major J. Cortes, og major S. E. Glahn.

MYSTIKKEN OVER DE "DØDE BYER"

■ SG Nielsen og KS E.A.P. Jørgensen ved en af STDEL patruljeejp i det skovbevoksede højland.

Selvom DANCON's hovedopgave ligger i NICOSIA, udgør byen dog geografisk kun en lille del af DANCON's område, og da der i i det øvrige område findes både græske og tyrkiske cyprioter, har vi også her fredsbevarende opgaver at løse.

Disse løses af A-KMP med placering af en DEL i LOUROUJINA og ved patruljering i det øvrige område. Denne patruljering udføres af SPVGDEL og STDEL, således af SPVGDEL tager sig af området umiddelbart omkring NICOSIA, og STDEL tager sig af det fjerneste område.

Da STDEL på disse patruljer kommer igennem alle bymæssige bebyggelser og kører ad så godt som alle veje i det tildelte område, kan ændringer af enhver art i de bestående forhold derude straks konstateres, hvilket selvfølgelig også er den primære opgave.

De folk, som kører disse patruljer, bliver gang på gang slået af den mystik, der hviler over de såkaldte

"døde byer", og for den gode observatør bliver mystikken endnu større når han kommer til Eliophotes, en forladt by i ruiner med undtagelse

■ Et udsnit af byen Eliophotes med kirken i baggrunden.

af den græske kirke, der fra sin højere placering ligesom vogter over de lerklinede huse, inden for hvis mure tyrkiske cyprioter i generationer har betrådt dagliglivets trædemølle, en trædemølle, som urolighederne imidlertid bragte dem ud af med flytning til tyrkisk-cypriotisk kontrollerede områder.

Det er selvfølgelig ikke kun den slags triste syn, der møder STDEL patruljefolk. De hører vel nok til de få danske soldater, der tjenstligt oplever det meste af, hvad Cypern kan byde på af natur. De passerer daglig i hvert fald på denne årstid store flade sletter - golde som ørken - kun afbrudt af små oaser, hvor befolkningen har mulighed for kunstig vanding. Kører videre op igennem det skovbevoksede højland for på de yderste patruljer at køre rundt i TRODOS røde og gråfarvede klippebjerge.

Dette er et job, som især i denne regnfulde tid stiller de største krav til motorvognsførernes dygtighed og vognkommandørernes nerver, da den meget lerholdige jord omfatter vejene til rene skøjtebaner. Trods dette er der næppe en af disse patruljefolk, som vil bytte job med nogen anden inden for DANCON's område.

DANCON NYT

Tilbage til arbejdet

Konefiyenes kapacitet er blevet udnyttet fuldt ud. Mens mange havde koner, kærester og øvrig familie på besøg på Cypern, tog omtrent lige så mange med flyene tilbage til Danmark, hvor de har tilbragt jul eller nytår.

Men hverdagen efter de stille og for nogle meget travle jule- og nytårsdage melder sig atter, og alle er nu igen "hjemme" på Cypern.

Vort billede viser SG H. M. Poulsen og OFR-S K.B. Klausen, da de sammen med mange andre vendte tilbage til Cypern.

På grund af pladsmangel er "Drivers Corner" udskudt til næste nummer.

32 PRESSDAGAR PÅ TVÅ MÅNADER PR-bataljonen nummer ett

FN-bat 43 C holder på at bli en PR-bataljon. Inte nummer 43 men väl nummer 1. Hösten har varit fylld av pressbesök och allt tyder på att också "vintern" kommer att präglas av massmediarepresentanters närvaro på ön i allmänhet och i Famagusta-zonen i synnerhet. Hela 32 dagars pressbesök har bataljonen noterat under november och december. Aldrig tidigare har en och samma bataljon visats sådant intresse hemifrån. Jämför man med FN-bat 40 C, som tjänstgjorde här sommaren 1968 och från vilken det finns siffror tillgängliga, står vi oss väl i statistiken. Under 40:ans hela period noterades endast nio dagars pressbesök.

Redaktör Irma Brandt, som återvände hem från Cypern i slutet av november, meddelade brevledes bataljonens preststjänst i mitten av december att "hittills har nio artiklar sett dagens ljus. Men julanonseringen och dålig sättningskapacitet på Eskilstuna-kuriren gör att jag inte velat lämna dem ifrån mig". Så snart det börjat läta lite efter julrushen ska artiklarna publiceras, skrev fru Brandt, samtidigt som hon hälsade till alla dem, som på ett eller annat sätt hjälpt henne under uppehållet på Cypern.

hel del, som han sade, "fint extra-material" och att "det säkert skulle kunna bli något av det också".

FN-FILM KLAR

I slutet av november anlände Sten Aaröe och Lennart Dahlin från Sveriges radios utlandsprogramms filmsektion. Båda är inkopplade på Finn Ridelands projekt "In the service of peace". Filmen utgör ett stycke information avsedd för utländsk tv-publik och är en omarbetad version av Ride-lands film "FN-vakt på Cypern", som spelades in under FN-bat 40 C:s period. Den håller nu på att slutgiltigt utformas i Stockholm och väntas ner hit i mitten eller slutet av februari. Filmen innehåller sekvenser tagna i alla fem världsdelarna.

När Aaröe och Dahlin senast var på Cypern ägnade de sig helt åt civpol. En komplettering behöves just för ett civpolavsnitt. Finn Rideland arbetar nu bl a med en film till FN:s 25-årsjubileum.

varit smittande. Att presstjänsten lagom till jul hann få ut c:a 45 "julkort" - bildtextartiklar med foto - till en rad tidningar via Fst/press var kanske inte anledningen till att Sveriges radios Göteborgs-redaktion på nyårsaftonen ville telefonintervjua ett antal västsvenskar i sitt nyhetsprogram "Västkvarten". Men någonstans ifrån fick man i alla fall idén.

Wendelberg, Östgöta-Correspondenten. Med nästa Scacyp den 20 januari kommer ljudradions Torgny "Swiss" Östgren, känd från naturvaktarprogrammen hemma i Sverige. Han ska göra program om natur- och miljövärd m.m.

Kaj Karlholm, som är en av TT:s mest kända nyhetsuppläsare i radio är allmänt intresserad av FN på Cypern. Han har en gång varit verksam här som zonpress-officer.

Ett allmänt intresse för också Anders Wendelberg hit. Men alla östgötar på 43:an har också lockat honom och tidningen att satsa på Cypern. Han kommer dessutom att ägna ett speciellt intresse åt civilpolisen, dess arbetsuppgifter, liv och leverne.

Av telefonintervjun blev det nu ingenting. Sex västsvenskar, mest göteborgare, satt en och en halv timme i Nicosia och väntade på samtal. De hamnade i stället hos HQ-majoren Bonde, som inte är göteborgare utan skåning. Göteborgs-radion ansåg väl major Bondes skånska alltför skänsk för att den skulle gå hem i Göteborg och skickade intervjun vidare till Syd-kvarten i Malmö.

Så nu vet ni, alla ni grabbar, som förgäves väntade i Nicosia medan kompisarna åt nyårsaftensmiddag på camperna, vart samtalet tog vägen!

Normal armoured car training had recommenced and the vital job of maintaining the Cars in a roadworthy condition was being carried out by the Cavalry Group fitters. Thus ensuring the Group was at the ready to carry out one of its main tasks, the patrolling of the Lefka District.

LENTOPALLOA JA LAHJAMAILOJA!

YKSP 12 "pyörii" erillisenä, itsenäisenä yksikkönä Kyproksella rauhanturvatehtävissä. Sotilaselämää sanan varsinaisessa merkityksessä. Vapaa-aika on ongelma siviilissä. Vapaa-aika on ongelma myös sotilaselämässä. Eräs hyödyllisimmistä keinoista torjua "Vapaa-ajan peikko" on kiinnostus, harrastus jotakin asiaa kohti erikseen ja yhdessä. Useimmiten ehkä urheilu.

Monipuolisesti ruumiillista kuntoa kehittävä urheilumuoto on lentopallo - monen muun pataljoonassa harrastetun urheilulajin lisäksi. Jälleen kerran käydään kovaa kamppailua pataljoonan mestaruudesta eri komppanioitten välillä Uuden vuoden aatonaattona pelattiin mm. ottelu 1 JK vastaan 3 JK, joka ottelu päättyi 1 JK:n voittoon luvin 3 - 0. Samassa yhteydessä luovutettiin pataljoonan käyttöön kymmenen pesäpallomailaa pesäpalloharrastuksen säilyttämiseksi ja tukemiseksi pataljoonassamme. Lahjoittajana mainittiin Kouvolan Pallonlyöjät ja KPL:n edustajana saarella toimi kapt Asteljoki 3 JK:sta.

KUVIEN KERTOMAA

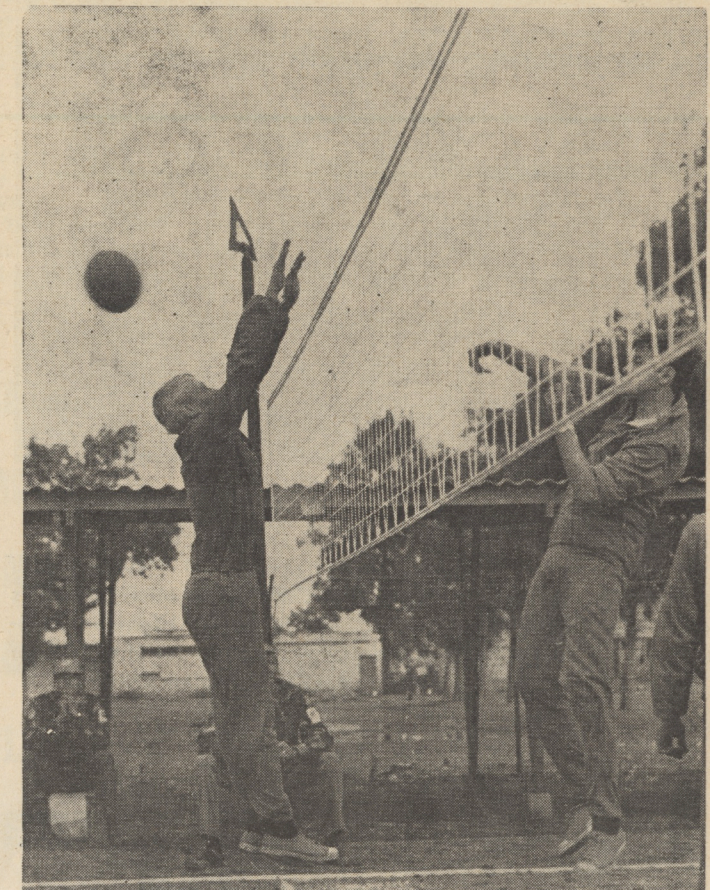

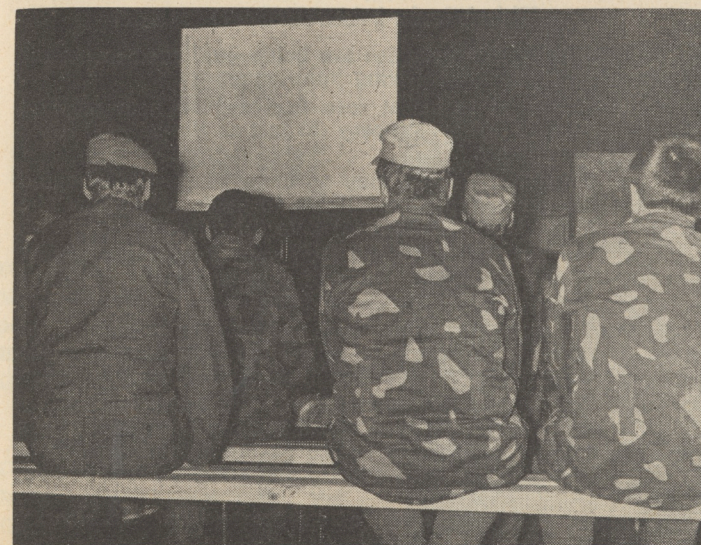

PARANNUSTA PATALJOONAAN

Joku sai prinsessan ja puolet valtakuntaa. Itävaltalainen kenttäsairaala sai kirkkonsa. Kakkonen ja kolmonen uuden keittiön ja YK:n Suomen Pataljoona uuden elokuvateatterijuhlasalin.

Sen vanhan kakkosen keittiön, josta kolmonenkin sai ruokansa. Paikka muutettiin tarkoitukseen sopivaksi käden käänteessä vivahderikkaiden tapahtumien jälkeen. Yhden idea on monen ajatus ja niin saatiin paikka, missä on hyvä pysytellä sisällä kylmempäänkin aikaan eri tilaisuuksien merkeissä.

Pääasiallisesti tanskalaisten esittämien elokuvien tähden. Ja pataljoonaniltojen. Ja kaikkien muiden tilaisuuksien. "Kastajaiset" pidettiin joulun aikaan ja Tapaninpäivän kahvit antoivat alkusysäyksen uusien tilojen mahdollistamille myöhemmille tilaisuuksille. Parannusta pataljoonassa.

Ilmeisesti alkava filmi on jännittävä. Pojat istuvat penkistä kiinni pitäen. Kuva on näpätty juuri ennen filmin alkua ja kerrottakoon, että laukaisun jälkeen sali täyttyi viimeistä sijaa myöten. Pataljoonan uudet penkit tulevat olemaan nähtävästi ahkerassa käytössä.

Ota kiinni ja lyö takaisin - jos saat. Lentopallotarja on käynnissä ja armoa ei tunneta. Finconin pelaajat ovat kautta saaren tunnettuja ja perinteet ilmeisesti jatkuvat. Kuvassa on kysymys "sisäisistä kamppailuista" ja vauhdikkaan pelin voitti tällä kertaa 1 JK eräluvin 3 - 0.

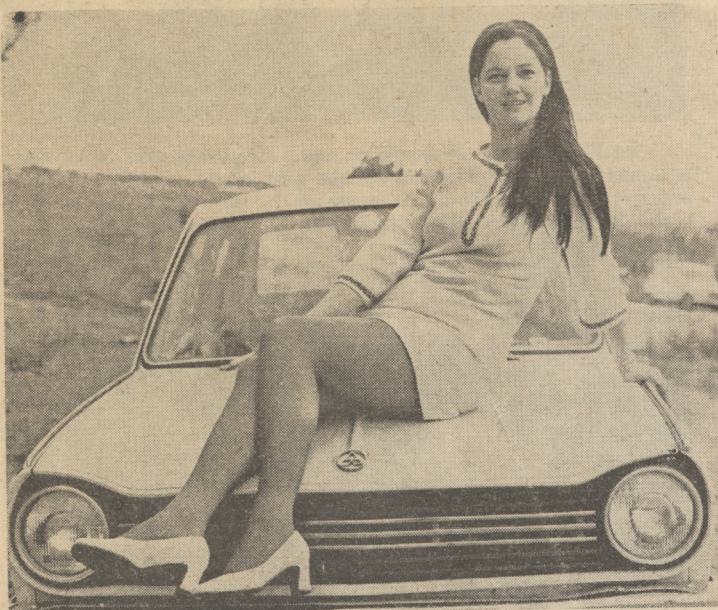

Ja oheen liitetään kuva kolmosen aliupseerimestistä, jossa jääkäri Äikäs tarjoaa talon antimia elokuviin lähdössä oleville asiakkaille. Kun filmit nyt siirtyivät Poliisikoululta uuteen elokuvasaliin, on matka lähes kaikkialta pataljoonasta yhtä pitkä. Leffaan vaan entistä innokkaammin.

CHIEF SIGNAL OFFICER'S CUP SIX-A-SIDE FOOTBALL

Pompadours 28 - Danish Sig Pl 4 (31 Dec 69)

The match, played at Polemidhia Camp, Limassol, resulted in a resounding win for the Pompadours; the first half, however, did not reflect this. The game opened with scrappy football by both sides, with the Danes taking more advantage of the loose ball. The Danes, spotting an opening, began to move the ball around and soon had the Pompadours defence in trouble. A long pass down the left wing was neatly chipped past Barker in the Pompadours goal by Blumsaadt to open the scoring.

The Pompadours soon recovered from this set-back; Milson made a clean break, ran the length of the pitch, beat four players and tapped in an easy goal to level the score.

The game was now completely dominated by the long pass, and the quick tackle. It was from such a tackle that Milson again gained possession on the edge of the Danish penalty area, before sliding the ball neatly past Hansen into the Danish goal. With two minutes to go in the first half, Plumb scored a good goal, slipping the ball past Hansen's feet. As the first half ended, a long pass from Gilbert found Milson who slipped the ball into the goal.

But for the fine saves of Hansen, the second half would have seen a torrent of scoring by the Pompadours. Four corners were given away as the Danes defence struggled to keep the ball out of their net. Eventually a fine shot from Plumb on the half way line found the mark. This was shortly followed by another fine goal from Gilbert.

The scorers were for the Danes Blumsaadt and for the Pompadours Milson (3) Plumb (2) Gilbert (1).

Harman Hajyt 0 — Vikings 30 (31 Dec 69)

Harman Hajyt had the home advantage in this game, but the Vikings were so much better that the Finns were mostly on the defensive. In the first half of the game The Vikings got 4 goals. In the second half the Finns did their best, but Swedcon were much superior and they scored three times more, and got two corner kicks.

The final result of the game was Harman Hajyt 0 — Vikings 30.

Irish Harps 6 — Mercurians 0 (31 Dec 69)

Played at Xeros on 31 Dec 69, under ideal conditions, this match proved to be twenty minutes of very entertaining football. The Harps attacked from the start and in the first five minutes fine saves by keepers saved the Mercurians from a bigger defeat. In the sixth minute Frawley crossed and Brown made a mistake with this one and gave the Harps the only goal of the game.

A shot by Flanagan half way through the second half at point blank range was saved by Gibson, and the Harps keeper Durkin stopped the only attack by the Mercurians in the final minute.

The final result to a fine game Irish Harps 6 — Mercurians 0.
