

The Blue Beret

Issued by the Public Information Office
of the United Nations Force in Cyprus.

Volume Eleven No. 22

Wednesday

18th July

1973

84 SQUADRON SOUVENIR COVER

Aeronautical events have long been marked by the production and carriage of souvenir mail. The British Royal Air Force have, since 1969, regularly commemorated special events in this way. In the present Squadron Series it is now the turn of 84 Squadron.

This cover is unique as it is the first one in the whole of the Museum style covers that has had any connection with the United Nations.

84 Sqn Detachment was

formed at RAF Nicosia in January 1972 in its UN Role, although both the aircraft and the majority of the pilots had been in Cyprus for some period of time, usually on detachment from the United Kingdom. This souvenir cover shows the links between the 84 Sqn and the different Contingents and the flight around Cyprus on 15 July 1973 was recorded by means of suitable impressions made on the back of the envelope. Profits from

the sale of these envelopes will go to the United Nations Children's Fund and the RAF Museum.

A few facts and figures:
Approximately 14,000 envelopes are being issued (most of which have already been ordered). The number of separate operations i.e., sticking stamps on, stamping the reverse, etc, will total just under 200,000!... together with many sore tongues and aching wrists!!!

THE FINNISH KYKKO CAMP

The aerial photo shows Kykko Camp, the neighbouring camp to Blue Beret Camp. Kykko Camp is the Headquarters of the Finnish Contingent serving with UNFICYP. The Finnish soldiers have been accommodated in the Camp since they arrived in Cyprus in the spring of 1964. For the first couple of years the soldiers lived in tents, but by the end of the sixties the Cyprus Government had started building the huts seen in the photo. The last buildings were completed in January 1971. To day there are about 100 Finnish soldiers living in Kykko Camp.

INTER-CONTINGENT FOOTBALL

The form of the Inter-Contingent Football competition has now been decided. There will be two divisions as follows:-

Division 1	Division 2
Camp UNFICYP	Auscon
Britcon	Dancon
Fincon	Swedcon
Ircon	UNCivPol

Each team will play three games initially, games being played on the 16th, (results below), 20th and 23rd of July. The top two teams in each division will then play semi-finals and finals on the 2nd and 9th of August.

Results of games played on 16th July were:-

Ircon 0	Camp UNFICYP 5
Fincon 2	Britcon 0
Swedcon P	UNCivPol P
Dancon 3	Auscon 0

315 CARS

Since last week's Blue Beret was issued 315 more vehicles have come on to the roads of Cyprus. 315 more reasons to drive with care.

ROTATION

On 17th of July and 27th of July 1973 AUSCON is having its so called "Little Rotation". Approximately 90 soldiers of all ranks, among them the commanders of the two tactical infantry companies, will leave the island after having served for 6 months.

Because of the Austrian defence system it is not possible for the Austrian Army to exchange the whole battalion every six months.

Therefore, the Austrian Battalion is filled up after every three months. This has the advantage of a thorough handover of all duties and furthermore it means help and support for the "new-comers" by those who already have been here for three months.

MEDALJE OVERRÆKKELSE I XEROS

i OFF — MESS ONSDAG 6 Juli

Hovedpersonerne var: Major H.O. Sietam, Premierløjtnant J. Gram, Andersens Sekondløjtnant A. Nielsen og oversergent S.A. Jensen. Medaljerne blev overrakt af kontingentchefen oberstløjtnant L.M.K. Skern.

●"DOC" paa tærne igen.

INFIRMERIET

De fleste ved, at Infirmeriet ligger i Xeros. Det har til opgave at varetage sundhedstilstanden hos hele DANCON kontingentets 294 personer.

Kontingentet omfatter tre lejre plus 10 OP'er og ligger spredt over et ret stort areal, saa alene her ligger et stort arbejdsområde naar "Doc" og en sygepasser Kører hygiejneinspektion for at kontrollere tilstanden i køkkener, toiletter m.v. Her viser det sig i øvrigt, at alt bliver passet og plejet med kærlig haand.

Besætningen paa INF er ikke stor. Der er RSLG "Doc" samt tre sygepassere, men desværre ingen sygeplejersker. Man er altid pa-

rate til at helbrede de tre senge-liggende patienter, som her er plads til.

Selvom personalet, der bliver sendt herved, ikke er hypokondere, men sundhedsmæssigt OK, kan man hurtigt paadrage sig en infektion (vand frugt ect), og så fyldes sengene op.

Derudover behandles alle mulige andre søre tilfælde, og der er ingen grund til at komme ind paa, at "Doc" ogsaa lejlighedsvis optroder som dyrlæge. Til de alvorlige tilfælde, staar en ambulance klar med genoplivningssæt, dropset osv til hurtig udrykning til AFH, hvor udstyret er noget mere omfattende end i Xeros. Allerede nu har INF haft flere udrykninger end paa

EN SKYDEBANEDAG

Kl. er 0330 og på øvelseslisten står der morgenmad, og så ved alle, hvad der skal ske. - Skydning i Dhekelia. Først den sædvanlige kedelige tur til Nicosia, og derfra mod Larnaka, hvor man passerer noget af det mest øde, der findes på øen. Ikke mærkeligt at alle sløver hen.

Samtidig med at solen står op i øst, ankommer man til skydebanen, som nærmest ligner en ørken. Noget af det første der slår en er, at det nu er meget praktisk at solen står op i øst og ikke i vest, for man undgår det meste af formiddagen at få solen i øjnene. Det medfører naturligvis, at man - hvis det ikke netop er mandag morgen - kan se skiverne et par timer.

En morsom og farlig ting på

skydebanen er, at pludselig ser man en knallert komme frem fra markdækningen, og så må man hurtigt mulig indstille skydningen. Det er Josef, overopsynsmanden på Dhekelia skydebane. Da han starter med en baksiscola til banekommandøren, glemmer man hurtigt det besvær, han laver. Med den opførsel skulle man undre sig over, at han ikke er skudt for længe siden.

Klokken er næsten 11, solen skinner i øjenene, man kan ikke se skiverne, tungen er som en gallosche, 'drøvelen' som en 1/2m nedløbsrør og humøret lavt. Nu kommer der heldigvis et nyt hold hjemmefra og 'kogeren' i Limnitis har sørget for mælk og madpakker, så nu holder man den gående til

●Et velfortjent hvil, fra skydebaneøvelserne i Dhekelia.

hele hold XVIII.

DANCON leverer endvidere blod til patienterne på Minehospitalet og til General Hospital. Hvis der anmodes om en special blodtype, finder INF i kartoteket den paagældende og kører ham til aftapning.

DANCON borger for kvaliteten. Men skulle der være et gigtplaget kne, som irriterer, så er det paa Infirmeriet det foregaar.

DANCON NYT

ordren om at køre hjem kommer, og hvis ellers de gamle biler vil, går det stærkt.

Sidst på eftermiddagen hjemme i teltene, er man klar til 'Boels' koteletter m/rodkål og vandmeloner, og med forventningens glæde er man klar til at tage til skydebanen næste uge.

SNABB SVENSK INSATS

● Genom ett snabbt ingripande av den svenska vaktstyrkan vid Carl Gustaf Camp i Famagusta avväjades en eldsvåda i ett privat hus mit emot den svenska förläggningen.

● Eldsvådan upptäcktes av några soldater som omedelbart slog larm. Samtidigt som vaktstyrkan under befäl av sergeant Jan Agustsson ryckte ut larmades också brandkåren i Famagusta.

● När brandkåren kom till platsen hade den hotande branden nästan helt bekämpats av de svenska soldaterna - som beväpnade med bajonetter och hinkar lyckats få kontroll över elden.

● Det var ett mindre uthus i nära anslutning till boningshuset som fattat eld och hade inte den svenska vakten ingripit så resolut hade det varit stor risk att hela huset brunnit ner.

● Eldsvådan blev ett gott test på den svenska brandberedskapen - och dessutom prövades också bataljonens nya "brandbil".

● Det var en av vattenbi-

—Tack för hjälpen! Brandsergeant Sozos Georgioy tackar den svenske vaktchefen Jan Agustsson efter branden vid CGC-vakten. Bland brandsoldaterna i bakgrunden står pte Ekström som också deltog i släckningsarbetet.

larna som passerade just vid utryckningen och fick denna nya uppgift.

● Polissergeant Sozos Georgioy från Famagusta Police Fire Station framförde efteråt

sitt och sina mannars tack för den snabba och effektiva svenska insatsen.

Här invigs den nya MP-baren i Famagusta. Mrs Parker har just klippt till med MP-gänget som glada vittnen. De som väntar är fr Bengt Ljunggren, MP-chefen major Parker, Bob Reid, Roland Axelsson och Keith McIntyre.

MP-CHEF PÅ BESÖK INVIGDE NYA BAREN

● Med pompa och ståt har så Famagustas nyaste "bar" invigts. Och det var ingen mindre än Mrs Parker - MP-chefens fru - som förrättade den officiella invigningen.

● Det som invigdes var Ljunggrens launch - en härlig uteservering i MP-villans trädgård. Fast

ingen riktig bar är det inte - utan mer en matsal ute i det fria.

● Det var i samband med sin inspektionstur som MP-chefen för

UNFICYP, den kanadanske major Roy Parker, även var med om detta öppnande.

● Major Parker inspekterade inte bara MP-detachment i Famagusta. Han passade också på att besöka både den svenska bataljonen och civilpolisen där han orienterades om läget.

SWEDCON NEWS
Swedish Forces Photos

NEWS IN BRIEF

● Last week the Swedish campguard at Carl Gustaf Camp in Famagusta helped the Fire Brigade to handle a fire in a private house just opposite the Swedish camp. The fire was reported by some Swedish soldiers and the guard-men had the fire under control when the Fire Brigade arrived.

● Afterwards the Commander of the Fire Brigade Squad congratulated the Swedish soldiers on their very fast action.

● The UNFICYP MP-detachment in Famagusta was last week visited by Major Roy Parker, Commander, UNFICYP MP Company and at the same time a new bar was opened in the garden at the MP-Headquarters in Famagusta.

Svenska segrar

● De svenska fotbollsfrågångarna fortsätter. Inte nog med att det riktiga landslaget klarar sig utan förluster - utan här på Cypern härjar det svenska bataljonslaget lika framgångsrikt.

● Hittills har vi i träningslandskamper besegrat Finland med 1-0 och dessutom gett Irland på pälsten med hela 3-0. Det bådår gott för framtida turneringar!

Troops of 'A' Squadron, 16th/5th The Queen's Royal Lancers, currently serving as the Force Reserve, have been visiting Contingent areas on a series of familiarisation tours. Third Troop, led by 2Lt Horsburgh, are seen here in Ayios Theodoros during a recent visit.

UN SOCCER COMPETITION

In the next few days the second series of matches in the UN Soccer Competition get under way. On Friday 20th of July Britcon are at home to Camp UNFICYP and on Monday 23rd of July Britcon travel to Ircon whilst Camp UNFICYP entertain Fincon.

We arrived in Cyprus at the beginning of May, and, having found out where this place Zyyi was — no one seemed to have heard of it — we move to our home for the first two months of the tour. Zyyi itself is a small fishing village on the south coast, roughly half way between Limassol and Larnaca, and our camp (built in the days of Kitchener — and remaining virtually unchanged) was situated at the edge of the village. We settled in, glad of the comparatively cool 70 degree temperatures which made acclimatisation reasonably comfortable.

As our commitment was that of reserve company we were able to continue our normal company training as well as taking full advantage of the recreational facilities organised by Support Company. Soon canoeing, sub aqua

and sailing cadres and eventually water ski-ing ensured that our spare time would be profitably employed. Training was active and varied, Parachuting (a novelty for most of the company) was organised, and most of the company managed to slot in 3 descents without injury, (Sgt Ferguson ruined our statistics by choosing to land on the solitary log on the DZ). Several range days were allocated to us, and the company made comprehensive use of them, firing SLR, GPMG, Pistol, 2" Mortar, Carl Gustav and GPMG SF.

Some time was spent on brushing up on conventional tactics, prior to our infiltration exercises in the Trouli area. This exercise went extremely well, we had dropped in at night, moved on foot to hide areas and carried out recces, culminating in a night ambush.

We also found time to carry out a 2 day exercise in the Troodos Mountains. The venture proved extremely worthwhile, the mountains provided an excellent situation for a physically hard and difficult exercise, and the impromptu party which 'happened' on the learning of our stay was an outstanding success.

Our two month period as reserve company is about to end, from here we move west to Polemidhia and the task of Town Company. We are looking forward to the new location at Limassol, and the new role.

Deserving Praise

Ircon considers its page in the Blue Beret this week to be of major importance, because at their half-way stage in their tour in Cyprus we pay a special tribute to their Transport Section. All consider the transport section of any group to be of major importance and rightly so. For the first half of their tour in Cyprus the Irish Transport Section is accident free which is a source of great pride to them and justifiably so. They are on the go all the time and when one takes into account that of twenty two drivers, twenty are new to Cyprus and its roads and traffic, one must salute their achievement. Credit is due to the drivers themselves for their care and attention to duty, but also to Captain Denis Byrne their Transport Officer who has plenty of experience of Cyprus, having served here before, and his very capable N.C.O's. Chief among these is the Transport Sergeant, Oliver Devine under whose careful supervision they operate. One must single out Sergeant Devine for special mention.

Sergeant Devine joined the Irish Army in 1956 in Athlone Barracks joining the Transport section of the 6th Battalion. In 1964 he was transferred to Mullingar Barracks where he is now in charge of the transport section there. Having served in Cyprus on three previous occasions one must re-

spect his knowledge and experience. He served here in 1965, 1968 and 1971. Previous to that he served in the Congo in 1961 and 1963. Married with three in his family he is very interested in soccer and Gaelic football. Sergeant Devine would share any praise with his Technician Sergeant, Ray Mullins who makes sure that all the nuts are in place, and his Corporals John Normoyle and Owen Synnott.

Our sincere thanks are due to all of them for their care of all of us on the road, but we must ask them to maintain their vigilance and make sure that the second half of their tour is as trouble free as the first half was.

A happy group of Irish drivers from the Transport Section with their Sergeant, Oliver Devine on the far right.

Sergeants Ray Mullins the Technician Sergeant of the Transport Section with Corporal Owen Synnott.

VISIT OF THE FORCE COMMANDER

On Tuesday 10th July, the Force Commander, Major-General D. Prem Chand paid an informal visit of inspection to Inishfree Camp, Larnaca. He was welcomed on his arrival by Lieut-Colonel Sean Garvey the Irish Contingent Commander. Our picture to the left

shows the Force Commander with some of the Officers of the Irish Contingent.

IRCON NEWS

NEWS FROM UN CIVILIAN POLICE

On the 26th of June 1973 Swedcivpol Headquarters, Famagusta, was visited by the Force Commander Major General D. Prem Chand PVSM, Police Adviser Doctor Hans Wagner and Major Leo Maier, POLOPS, HQ UNFICYP. They arrived at Famagusta by helicopter.

Their arrival was delayed some minutes because they got a message from their HQ that an oil slick had been

sighted in the Mediterranean outside Salamis.

At Swedcivpol there was a briefing for the guests and afterwards a short time was spent together in the mess, talking about the special problems which could arise in the Famagusta district.

Our picture on the right shows Superintendent Hjalmarsson, Swedcivpol, meeting the Force Commander, the Police Adviser and Major Maier at the helicopter landing site.

"CHARLIE" AT WORK

Since invading the Isle of Aphrodite, "Charlie" has done much more than keep the peace, swill suds, and soak up sunshine. (Contrary to some reports no doubt!). In fact, he very quickly developed into an excellent part time carpenter, stone mason, painter, upholsterer, interior decorator, general labour, and handyman, and has since busied himself with a host of improvement projects, in hopes of making living conditions and working efficiency a little bit better for "C" squadron.

To date, the squadron has tackled over 50 various projects, some of which have taken many weeks and countless man-hours of "voluntary" labour to complete. Our main administration building has been reorganized, offices and sleeping quarters relocated, in an effort to achieve optimum use of space, more privacy, and more

efficiency. Buildings were painted inside and out, new gates and signs constructed, new cement steps and patios poured, screens installed, bathrooms repaired and repainted, and of course, we reconstructed and enlarged all the bars in City Squadron, to feel more "at home". Operations had their share of projects as well, repairing and repainting each of our observation posts.

Yes "Charlie" has been a busy kitty, working long, and hard, hot hours even during days off, in order to complete the bulk of our major efforts before the heat climbed to near impossible working temperatures. But when all is said and done, and the big silver bird wings "C" Squadron homeward, "Charlie" and Cyprus will know we left a little better place behind us than we found last April.

Each of City squadron's 8 manned Observation Posts was cleaned, repaired, and repainted by "C" Squadron's jack-of-all-tradesmen.

LA ST JEAN BAPTISTE DE "CHARLIE"

Hé bien oui! l'escadron "C" eut l'occasion de célébrer la St. Jean. La fête eut lieu au "Beaver Lodge". Malheureusement, la troupe 1 n'y était pas, celle-ci était en devoir.

Une bière gratuite attendait chacun pour nous rappeler des souvenirs, c'était de la bière Canad'enne. On prit donc cette bière en attendant nos invités qui ne tardèrent pas à se montrer. Il s'agissait du Commandant du Contingent Canadien, le Colonel C. Beattie ainsi que le Commandant du 3R22R le LCOL J. J. Morneau.

Ensuite vint un repas de choix servit à l'extérieur, à l'arrière de la cantine des hommes. Après ce festin copieux préparé et servi

par les cuisiniers du "Beaver Lodge", quelques bières aidant, tous commencèrent à se sentir dans le vent. Cependant la St. Jean ne pouvait être la St. Jean sans la commémoration du baptême de celui-ci. C'est ainsi que tous, incluant nos invités, furent trempés dans la piscine à poisson rouge et ce, tout habillé.

La soirée fut un succès pour tous, même si pour tous l'absence des leurs leur pesait.

CANCON NEWS

Members of 2 troop at work on project "back gate". They rebuilt the crumbled wall and constructed a new, more useful, rear gate to the Beaver Lodge compound.

La tête et le cœur de "Charlie"

Kapt Riikonen antaa ohjeet ennen hekoon nousua.

"Hekoon on mentävä nopeasti ja matalana" - ohjeet on opitu.

Pataljoonan "näyteikkuna" - vartiopaikka on muuttanut muotoaan.

HEKO - HEKO

Saimme Raffilta hekon harjoittel-tavaksemme. Olimme maassa ja ilmassa ja sillä välillä. Hyppäsimme vähän liian korkealta ja pidimme vähän liian löysästi köydestä kiinni. Olimme ensimmäistä kertaa moissa, useimmat.

Hekoharjoitus on aina mielenkiintoinen erikoisuudessaan, jopa jännittävä. On oltava vauhtia, mutta myös varovaisuutta. Eri-tyisesti on kiinnitettävä huomiota hekoon nousemiseen ja siitä poistumiseen. On oltava tarkasti selvillä roottorin mataluudesta ja pakoputken sijainnista, tai muuten, kuten brittiläinen lentäjä sanoi, voi huomata yhtäkkiä olevansa puoli metriä entistä lyhyempi ja grillattu. Palasimme harjoitukselta entisen mittaisina, tosin melko lämpimiä miehinä.

Täälläisessä vaikeakulkuisessa ja vuoristoisessa maastossa heko onkin osoittautunut mitä monipuolisimmaksi kulku- ja kuljetusvälineeksi. Vuori-komppaniailaisillemme heko on tullut varsin tutuksi kova äänisenä, ruokaa ja juomaa tuovana "mööpelinä".

YK:n käytössä olevat isommat hekot ovat merkkiä Whirlwind, pinemmat tunnetaan tyyppinä Sioux eli suu. W/W -hekoon voi lestata kuormaa noin 600 kiloa tai kuusi henkilöä varusteineen. Se lentää väliä Kykko-Hill Top noin viisi minuuttia.

Pikkuhekoon voi istua kaksi matkailijaa ja se on suunniteltu lähinnä tiedustelu- ja yhteyslentoi-

hin. Se on osittautunut erinomaiseksi sairaankuljetustehtäviin, varsinkin vaikeakulkuisessa maastossa. Lähi tulevaisuudessa entistä useampi finconialis-rauhan-turvaa tulee saamaan hekokuutiä ja-koulutusta.

FINCON NEWS

SUMMARY

A part of FINCON was given a chance to take part in a helicopter exercise last week. It is always a refreshing and interesting experience, especially for those who have spent most of their service in the conventional infantry. For those leaving for Finland in a couple of weeks the day gave a good rush-course to remember what it is like to be air-borne again. During the training the soldiers learned how to move swiftly (but also carefully) They also learned the great value of helicopters in a search and rescue operation.

Last week FINCON took also care of the security of our next-door neighbour i.e. it was our turn for the guard duty of HQ UNFICYP. It is quite a change to come down from Kyrenia Mountain Hill Top to the gate of Blue Beret Camp, but a change is always welcome.

Vartiojoukkueemme oli työmatkalla UNFICYPissä viime viikolla. Kuvassa alik Honko vaihtaa jääk Salosen jääk Puhakan tilalle.

QUARTERMASTER'S SPECIAL FORCE

"Allen Leuten recht getan, ist eine Kunst....," die nahezu perfekt in der Truppenkueche des AUSCON in Paphos geboten wird.

Ein Expertenteam ist taeglich dabei, schmackhafte Kost, ausgiebig und abwechslungsreich, zu gestalten. Keine leichte Aufgabe, denn wir Oesterreicher sind — was die Verpflegung betrifft — auserst konservativ.

Unser Quartermaster, Major Gabriel, sein Verpflegs-VO Vzlt Brunner, "Chefkoch" OSTv Kicking und ObWm Hausleitner, sowie viele Helfer sorgen, jeder auf seinem Posten,

fuer volle Schuesseln und zufriedene Soldaten.

Durch die Hauptkueche in Paphos erfolgt die Versorgung der 2. Kompanie in Polis und allen OP's, die ihre Frischration abholen und selber kochen.

Die Lagerhaltung, richtige Verteilung, nicht zuletzt die Beratung unserer "Laienkoeche" auf den OP's runden das Bild einer notwendig-wichtigen Taetigkeit ab.

Zwischen guter Kueche und zufriedenen Soldaten besteht eine Verbindung, die nicht uebersehen werden sollte.

● Mjr Gabriel kann leicht lachen, seine Leute verstehen ihr Geschaef.

HOCH SOLL'N SIE LEBEN

Unsere Geburtstagkinder des Monats sind Zwillinge. Nicht wirklich, aber beide sind am 19. Juli geboren.

Gfr Gebhart Mueller, MG-Schuetze bei der 1. Kompanie UNAB 3, stammt aus Koblach, Vorarlberg, und leistete seinen Wehrdienst beim Jaegerbataillon 23 in Bregenz.

Kpl Friedrich Grubmann, dzt. Teilnehmer am Chargenkurs AUSCON, kommt aus St. Leonhard, Bezirk Melk, Nieder-oesterreich. Er leistet dzt. den fvGWD und ist gleichfalls Angehoeriger der 1. Kompanie.

Als Nachzuegler feiert Gfr Hammer am 23. Juli seinen Geburtstag.

Alles Gute und weiterhin viel Glueck unseren Geburtstagkindern.

● 20 Jahre jung: Gfr Gebhart Mueller.

● OSTv Kicking (rechts), bespricht den Speiseplan der kommenden Woche.

"DAS GANZE RUHT!"

Hptm A. Neidhardt, Kommandant der 1. Kompanie UNAB 3, verlasst Zypern nach einer 6monatigen Dienstour.

Neidhardt, und kommandierte gekonnt: 'Das Ganze ruht!' Es klappte trotzdem.

Man muss sich eben zu helfen wissen.

Nicht immer einfach war diese Periode. Organisatorische Fragen waren in Angriff zu nehmen, die militaerische Ausbildung fortzusetzen, die Kompanie — durch zwei Rotationen wieder aufgefuellt — neu zu formieren.

Sein grosser Tag in der Oeffentlichkeit war jedoch anlaesslich der Inter Contingent Athletic Games. Hier hat Hptm Neidhardt als aktiver Sportler teilgenommen (400 m gekonnter Radsprint), aber auch als Kommandant die angetretenen Sportler aller teilnehmenden Kontingente dem Force Commander gemeldet.

Das "Attention" klappte noch vorzueglich, das "Stand easy" war aber dann im notwendigen Zeitpunkt nicht verfuegbar. Was tun, dachte Hptm

● Hptm Neidhardt (stehend), der Kommandant der 1. Kompanie UNAB 3.

AUSCON NEWS

FORCE COMMANDER VISITS BLUE DANUBE VILLAGE

On 22nd of June, the FORCE COMMANDER, Major General D. Prem Chand, accompanied by the Police Adviser, Chief Superintendent Dr. Wagner visited the Headquarters of Austrian Civilian Police in Blue Danube Village, Nicosia.

Members of Austrian Civilian Police, representing every Police Force in Austria, were reported by Captain Jaros, OC Nicosia District, to the Force Commander.

Subsequently, Commander Austrian Civilian Police, Colonel Dr. R. Heckl, gave a briefing on the police point of view and outlined the present situation, the current police problems and incidents from Nicosia and Kyrenia district.

AUSCIVPOL NEWS
